PUCKETT & GLENN'S

ColtShow at Lynchburg Last Thursday

Was a Success.

LYNCHBURG, O., Sept. 29th, 1887. The colt show at Puckett & Glenn's stables to-day attracted a large number of horsemen and others interested in the improvement of stock. The show was held in the eight-acre lot in which their stables are situated on the west side and adjoining town. The ground is gently rolling from town to East Fork, and the colts when drawn up in line presented a grand show. Puckett & Glenn have shown by to-day's exhibition what can be done in the improvement of stock, and they deserve praise for their efforts n behalf of the farmers in this community. Never before has it been our privilege to see so many fine and well developed colts in one company. There were about fifty colts on the ground and were shown in three classes. The first show was for general purpose, in which there were thirty-one entries, and so nearly equal in form and size that it was lifficult for the judges to decide. They inally reported their decision as fol-

First premium, D. Troutwine; second David Lucas; third, J. S. Oldaker, Judges, Amos Lieurance, John S. Jolly

nd John Leaf. The next show was for draft colts from Glenn's Clydsdale stallion. In this class here were seventeen entries of the inest draft colts we have ever seen, very one of which, as one of the judges expressed it, deserved a premium, but us only three premiums were offered it was a difficult task to decide between hem. The judges finall; announced heir decision as follows:

First premium, Otho Johnston; second Seorge C. Stockwell ; third, Ed Roush. Judges, John S. Jolly, C. N. Pulse, Amos Lieurance.

The third class was for roadsters, colt by Galba, the celebrated Hambletonian, and brother to Zenoba, the renowned rotting mare owned by Judge King, of Wilmington. In this class there were ifteen entries and premiums were warded as follows:

First premium, John Garner; second John Holaday; third, D. H. Lucas. Judges, Joseph Hixson, James Clark and Wesley Ruse.

On account of distemper among som of the colts and the threatening weather, a large number of the first colts were not on exhibition.

Liver Complaint
Is more surely and speedily cured by the
use of Ayer's Saraaparilla, than by any other remedy. •• I was a great sufferer from liver troubles, and never found anything that gave me permanent relief until I began taking Ayer's Sarsaparilla, about two years ago. A few bottles of this med-icine produced a radical cure.—Wm. E. Baker, 155 W. Brookline st., Boston, Mass.

A Remarkable Cure.

A Remarkable Cure.

Ayer's Sarsaparilla has cured me of as bad a case of Abscess of the Liver as any human being could be smileted with and live. I was confined to the house for two years, and, for the last three months of that time, was unable to leave my bed. Four physicians treated me without giving relief, and, in fact, nothing helped me, until I tried Ayer's Sarsaparilla. After using a quarter of a bottle of this medicine I began to feel better, and every additional does seemed to bring new health and strength. I used three bottles, and am now able to sitend to my business. I walk to town—one mile distant—and return, without difficulty. Ayer's Sarsaparilla has accomplished all this for me.—W. S. Miner, Carson City, Mich.

Oraters and Clams.

As the season for these delicious b valvular edibles is now here, it is well to inquire into their peculiarities and varieties. The oyster is a mollusk of very delicate fiber and aromatic flavor. He is a native of salt water estuaries, and enjoys his home on the pebbly beach. He is a voracious absorbant of salt and water, and thrives best where these necessities of his existence are best warmed by the summer sun. The clam s a twin brother or first cousin of the oyster, and like him wears his bones on the outside. Whether it is from fashion or is done for warmth and protection science has never learned. They are not emotional or intellectual, and their powers to reason or to absorb new ideas are known to be very limited. Some people are like clams and oysters. Some farmers are likewise. Their power and susceptibility to absorb salt and water is enormous, as is shown by their buying are thoroughly dry and free from salt. They are sold by the Hillsboro Hardware Company. Other people imitate the Clam-Oyster Combination by their
